

# Versatile Magnetic Smartphone Mount and Stand

Axon-Go is the ultimate multi-purpose MagSafe magnetic phone holder built for versatile hands-free convenience anywhere. Featuring 16 ultra-strong N52 neodymium magnets, it securely attaches to MagSafe devices and ferrous metal surfaces. The dual-adjustment arm provides flexible viewing angles for navigation, calls, streaming, content creation, and recording. An integrated carabiner and built-in flip-out hanger add everyday practicality, while premium aluminum alloy and nylon construction ensures durability. Included steel plates enable magnetic compatibility for non-MagSafe phones, cases, and surfaces, making Axon-Go perfect for work, travel, the gym, and everyday use.

Axon-Go

## Anywhere Magnetic Mounting

Powerful N52 magnets securely attach your phone to dashboards, gym equipment, refrigerators, golf carts, lockers, and other metal surfaces for reliable hands-free convenience anywhere.

## Multi-Function Portable Design

Combines a magnetic phone holder, adjustable desktop stand, carabiner clip, and flip-out hanger into one compact and travel-ready everyday accessory.

## Ultra-Strong Magnetic Stability

Built with 16 premium N52 neodymium magnets that deliver exceptional holding strength for secure and dependable smartphone mounting throughout the day.

## 360° Rotatable Shooting Angles

Fully rotatable arm supports flexible front-facing and rear-facing shooting angles for content creation, selfies, video recording, and hands-free streaming.

## Flexible Viewing Positioning

Dual-axis adjustable arm design enables comfortable positioning for navigation, video calls, content viewing, and productivity from virtually any angle.

## Integrated Hanging Convenience

Features a carabiner hook for attaching to objects and a flip-out hanger for holding bags, clothing, and accessories directly on the unit itself.

## Universal Device Compatibility

Included steel plates instantly add magnetic support to non-MagSafe phones, protective cases, and non-metal surfaces for expanded universal usability.
