Axon-Pro

Axon-Pro is the ultimate 6-in-1 magnetic phone holder built for creators, travellers, fitness enthusiasts, and everyday use. Featuring ultra-strong N52 neodymium magnets, it securely attaches to MagSafe-compatible devices and mounts to ferrous surfaces like car dashboards, gym equipment, refrigerators, and metal frames. The 360° rotatable arm with three-point adjustment supports the perfect viewing or shooting angle. Use it as a tripod, desk clamp, selfie stick, or magnetic mount. Crafted from durable aluminium alloy and reinforced nylon, it also includes a carabiner hook and steel plates for non-MagSafe devices and surfaces.

Ultimate 6-in-1 Versatility

Combines magnetic mounting, desktop stand, selfie stick, clamp support, tripod stability, and carabiner attachment functionality into one compact accessory.

Foldable

& Lightweight

Portable Design

Strong Magnetic Stability

Equipped with premium N52 neodymium magnets that deliver reliable magnetic grip for secure phone mounting on MagSafe devices and metal surfaces in different environments.

Advanced Multi-Angle Flexibility

Triple-axis adjustment with a 360° rotating arm provides smooth positioning and effortless front-facing or rear-facing shooting for professional-quality content capture.

Compact Yet Highly Functional

Foldable & Lightweight Design combines portability with powerful everyday usability, making it ideal for creators, travellers, office setups, and outdoor activities.

Universal Mounting Freedom

Spring-loaded clamp and universal ¼" screw adapter allow compatibility with desks, tripods, shelves, rigs, and multiple mounting accessories for expanded usability.

Carry & Hang Convenience

Integrated carabiner hook lets users easily attach or hang Axon-Pro onto bags, rails, hooks, and everyday setups for practical portability and fast access.

Universal Device Compatibility

Included steel plates instantly add magnetic support to non-MagSafe phones, protective cases, and non-metal surfaces for expanded universal usability.
